

POW #4-2

CELL PHONES Use the poster at the right. If your bill for one month was \$113.74, find the number of minutes you used.

- Write an equation that will be used to solve the number of minutes you used this month
 - If your friend has a plan that charges 19.99 a month / \$.15 a minute pay-as you-go and he paid 113.74 how many minutes did he use up for the month?
- C. Who has a better plan explain in words?
